Central Azucarera De Don Pedro Inc.(CADPIPIPIPIPIS)and a farm worker in Batangas is the closure of the Power this year. They formally filed a resolution, along with the Makabayan bloc, Sahouse of Representatives on February 15 to

investigate the sudden turn of Roxas Holdings Inc. They also interviewed the representative in Congress to gain support for their call.

According to Sugarfolks Unity for Genuine Agricultural Reform(SUGAR)-Batangas, approximately 12,000 farm workers and more than 7,000 small plantaries have lost their livelihood due to unjust closure of the sauce. "It destroys the local sugar industry not only in the province, but across the country," the group said.

Prior to that, the government's sugar-bangas insisted on buying and overseeing the CADPI operations to save it to strengthen the local sugar industry in the province.

According to Christian Bearo, Sugar spokesman, it will greatly affect the Batangas plantators because only 4,500 metric tons of sugar can be grown by the remaining sugar mills in the province compared to the Cadpi's 12,000 metric tons per day. At the forefront of 2020, the CADPI covers 10,980 hectares of the province.

Bearo explained that the local government of Batangas had earlier pledged to pay the transportation cost of ₱ 30,000 per truck to travel to the Central Azucarera de Tarlac(CAT). Subalit anito, hindi kayangsagutin ng lokal na gubyerno ang gastos para sa 200 trak kada araw na umaabotsa halos ₱6 milyon.

Naiulat din na magbibigay ng ₱80 milyong ayuda sa 2,000 manggagawa at maliliitang plantador para makaagapay. Reklamo ng SUGAR, di ito sapat at kaunti lamangang masasaklaw nitong manggagawa at plantador. Giit ni Bearo, dapat itongmagbigay ng subsidyo sa paggawa sa lahat ng mga manggagawa sa tubuhan nabahagi ng produksyon at sapat na kumpensasyon laluna sa maliliit na plantador.

Insulto umano ang kainutilan ng Sugar Regulatory Administration (SRA)It says all it can do is to convince Cadpi to reopen for this year.

According to Sugar, the government should give the Small Plantadors a subsidy of production, especially fertilizer. This is in addition to buying the grinder.

“It is just like a hybrid seed program in Marcos SR's Masagana 99 Join Farmers in High-Yielding Seeds(Production is high)And it relies on chemicals, expensive fertilizers and pesticides, ”said Ka Paengmariano of the KMP.

The farmers can always buy the peasants if it is a hybrid, according to Ka Paeng. This is because its seeds cannot be pushed, unlike inbred or certified seeds.

“It's different(certified bones), the hybrids(na bone)is not able to be bored. The farmer will always buy. The hybrid seed company has a certain income here, ”he said. SL Agritech Corporation, a company that sells hybrid seeds, has been criticized for the leading program.

“We should reproduce a rice seed class, just keep(Bone development)Rice and strengthen local production, ”Ka Paeng explained. “When gardening, the peasants can keep the seeds, they can also replace the seed(seed exchange). Kapag hybridrice seeds lang ang ipatatanim, hindi na pwede ito.”

Kapag ganito,magkakaroon ng erosion of genetic diversities (loss of diversity).Kung may genetic uniformities o iisa lang ang binhi, kapag tinamaan ng sakit,peste o virus ang palay, salanta agad. Ganun ang nangyari sa IR8 sa Masagana99ni Marcos Sr. ‘Yung resistance (or ability to fight)The crop is also weakened over time so the breeding atconservation of the seeds should continue. We also have many improved inbred varieties of the free so that hybrid rice should not be forced. ”

By a commentator for the Earn Folket Media.

Since 2020, the richest percentage of the world's population has earned the near -thirds of the $ 42 trillion Verids created during the period. This is the organization Oxfam in its report for January 2023. This is an increase at the top of already record high levels of accumulation. This "normal level" was that the upper percentage earned half. The report adds advances that can really make one look red considering the world situation today. It is further submitted in the report that billionaire wealth is growing 2.7million dollars a day. For every dollar one of the lowest 90%, Håveren a billionaire earns $ 1.7 million.

The report calculates that over 50% of inflation in Australia, the United States and European Comes of Company's profit maximization. This inflation is already running downhill to over 1.7 billion worldwide, which is more than the population of India. The World Bank has admitted that the progress towards their goal of wiping out extreme poverty has stopped. Increasing food prices and power crisis that rage in many countries have also benefited the billionaires.

The pandemic has been strong headwinds for many of the super rich. In many countries, public funds pumped into the economy, which raised the prices and thus the wealth of the richest. This is at the same time as millions of people have the losing of the Coronavirus.

The report calculates that over the next five years, three -quarters will be sharply tightened their budgets. The cuts are calculated to 7.8billions dollar together.

This after a wave of tax cuts has gone over many of the countries above -formillionaries. Only 4 per cent of each tax crown comes from wealth taxes. Half of the world's billionaires live in countries without inheritance tax or fee.This is capitalism, which today is in its second and final stage, imperialism. Imperialism is dying and rotting capitalism, and further napkin now that it is in a deep stage of decay. But we know that everything goes through the process of childbirth and death. The new one is born and the old door. Imperialism is dying, and the perverse misery we see is taking place is an expression for just that. Imperialism goes towards the cliff, and it has no road bake. The poor are the ones who are most disposed of to rebel. We know that capitalism has, in the working class, created its own trackmen. The seeking and immersive poverty will only speed up its downfall.

Already from the morning the video of the beating, which took place in front of dozens of people, began to bounce on all Isocial, also given the dynamic

evident from the images and immediately confirmed by the principal Rita Gaeta that the police have. The attackers, who among other things kicked unragazzo thrown on the ground, were not students of the school.

In the following hours, the Police Headquarters identified, on site and in the images, the attackers in six young AS militants, far -right movement, say three more than twenty years old. The police confirmed that from the testimonies Emergency would have been the six to start the violence: on the point they are in progress. For them, a report for non -warned demonstration will start, while for personal injuries it is expected that the two Studentiaggresiti present complaint. The judiciary will have to evaluate lenthesis of crime.

Student action is a division, for high schools, of youth, the youth movement created by Fratelli d'Italia. Evoluction of the Youth Diaction and of the Youth Front, has been called "gym" of the Manager of the Brothers of Italy by Prime Minister Giorgia Meloni - that inhales movements was formed - on the occasion of the last congress, in 2021.

The group's link with the party is known. Also for this reason, many, in the political arch and on the net, immediately asked the government and in particular the premier to condemn what the mayor of Florence had first had had undefined "squadrista aggression".Liliana Omegna.

L'AGGRESSIONE

Firenze, i giovani FdI dietro il blitz "squadrista" al liceo

LE REAZIONI DOPO IL VIDEO DIFFUSO IN RETE

IMMEDIATAMENTE le immagini del pestaggio in strada hanno suscitato reazioni di politici e istituzioni toscane, che hanno parlato di "attacco squadrista". Dopo che è stato chiaro che gli aggressori fossero di Azione Studentesca, diversi politici hanno chiesto alla premier di condannare l'accaduto, anche in virtù del suo passato nell'associazione.

Leonardo Bison

Fra subito apparsa un'aggressione violenta e vigliacca, rischia di trasformarsi in un problema anche per il governo. Ieri mattina, all'ingresso della scuola, in sei, di cui tre maggiorenni, tutti militanti di Azione Studentesca, hanno aggredito due studenti del liceo classico Michelangelo, in via della colonna a Firenze. Sembra sia stata l'opposizione a un volantinaggio, a scatenare la reazione violenta dei sei: i due studenti aggrediti militano nel collettivo di sinistra Sum. Già dalla mattina il video del pestaggio, avvenuto di fronte a decine di persone, ha iniziato a rimbalzare su tutti i social, data anche la dinamica evidente dalle immagini e subito confermata dalla preside Rita Gaeta che ha chiamato la polizia. Gli aggressori, che hanno tra l'altro preso a calci un ragazzo gettato a terra, non erano studenti della scuola.

Nelle ore successive la questura ha identificato, in loco e nelle immagini, gli aggressori in sei giovani militanti di As, movimento di estrema destra, di cui tre più che ventenni. La polizia conferma che dalle testimonianze emerge come sarebbero stati i sei ad iniziare le violenze: sul punto sono in corso accertamenti. Per loro scatterà una segnalazione per manifestazione non preavvisata, mentre per le lesioni personali si attende che i due studenti aggrediti presentino querela. Alla magistratura spetterà di valutare le ipotesi di reato.

Azione studentesca è una divisione, per le scuole superiori, di Gioventù Nazionale, il movimento giovanile creato da Fratelli d'Italia. Evoluzione di Azione Giovani e del Fronte della Gioventù, è stato definito "palestra" della classe dirigente di Fratelli d'Italia dalla premier Giorgia Meloni - che in quei movimenti si è formata - in occasione dell'ultimo congresso, nel 2021. Il legame del gruppo con il partito è cosa nota. Anche per questo in tanti, nell'arco politico e in rete, hanno subito chiesto al governo e in particolare alla premier di condannare quella che il sindaco di Firenze per primo aveva definito "aggressione squadrista". "Episodi che non vanno minimizzati" per l'assessora all'istruzione della Toscana, Alessandra Nardini. Le reazioni politiche sono proseguite per tutta la giornata. Ma per ora, da FdI è arrivata solo una nota del coordinamento cittadino del Partito a Firenze, che parla di "profondo rammarico per gli scontri" e una condanna di "ogni forma di violenza da chiunque esercitata". Nota precedente l'identificazione di tutti gli aggressori come militanti di Azione Studentesca. Poco, di fronte a un atto collettivo di tale violenza.

27 . And on January 28, seven Israelis were killed and 12 wounded as a result of two attacks by the Palestinian national resistance movement in East Jerusalem, an area annexed and occupied by Israel. The attacks happened that ten Palestinians were killed by Zionist troops from the State of Israel Iden Palestinian city of Jenin.

26 . January, the Israeli army killed 10 Palestinians and injured 20 other lower military operation in Jenin on the occupied West Bank. The operation warned against several homes, a refugee camp and a hospital. It was justified as an action against so -called "terrorists", as the national liberation movement and other resistance movements are called.

Them Vikke Dienen writes that among the dead were, in addition to several young men, a 61 -year -old woman who was literally executed in her own home co -shot. In addition, a tear gas grenade was fired into a pediatric ward at a local hospital and injured several children.

Members of the national liberation organizations Hamas and Islamic jihado defeated themselves to the massacre, some with firearms. With this aggressive

attack, the resistance of the Palestinian people also grows. The aftermilitary operation in Jenin fired Hamas two rockets against the Israel Fragaza Strip. In this connection, crowds took the streets to protest the occupation and the ongoing reactionary operations. In Jerusalem Skjøtisraeli security forces against a demonstration and killed a 22 -year -old palestines. So, on Friday, January 27, Israel bombed the dense population gaza strip. According to official statements, only the military positions were officially announced by Israel.

Israel's new reactionary government has also implemented its new so -called "anti -terror laws" since the weekend. These laws make it possible to evacuate and death the homes of everyone who Israel considers terrorists. Furthermore, will families for so -called terrorists are placed in kinship interaction by Åbli deprived of their rights just because they are related. These measures are increasing the oppression of the Palestinian people and aiming to further prevent the Denational Liberation Movement. However, they are just a pathetic attempt to break the Palestinian resistance, which will only strengthen the folk struggle.Less than 24 hours later, on the morning of January 28, the second attack was performed. This time, a 13 -year -old Palestiner shot a group of five people with a gun. Two Israelis were injured, but no one was killed. The boy afterwards shot by passersby Israelis, who overpowered the Hamo to Zionist IDF troops arrived. The Palestinian was in custody at Etisraeli hospital.

The actions in East Jerusalem were celebrated by national resistance groups, but the none of the groups have assumed responsibility for the actions. Hazem Qassem, a spokesman for Hamas, stated that "this operation [shooting in East Jerusalem] is a response to the crime performed by the occupation of Jenin and a natural response to the criminal acts of the criminal acts."

Since last year, there has again been a huge increase in Israel's terror against the Palestinian people. In January 2023, 30 Palestinians have been killed. In 2022, 225 Palestinians killed by Israeli occupation forces, which is the highest figure in 15 years. This is met with a growth in armed groups Palestinian territory, rocket launches, bomb attacks and knife attacks.

In retrospect, road blockades, street protests, rocket attacks and shooting against the Zionist aggression of the state of Israel, and the compliance with Zionist operations in Israel in 2023(Only in January was 35 palestinians killed by the Israeli military), and especially after the Massacre Ijenin, the Palestinian

national resistance continues to confirm the declarations and actions that it will continue to increase its struggle.

For Valentine's Day, the town publishes the story of a warrior warrior who met, became a relationship and married a party.

Salin from the original Bisaya, this is the story of Ka Safa and Ka Asyong. ___

“Love at first sight” was Safa's description when she first saw her.

“Our youth conferences back then, we instruct him in Padpa(National-democratic school). Demokratikong rebolusyong bayan ang paksaniya. Naka-all black uniform at full battle gear habang nagtuturo. Wow, astig!Crush ko agad siya,” natatawang kwento ni Safa. Dalawang taon nang aktibistasa isang paaralan si Safa noon.

“May mga batayang pulitikal din,” habol ni Safa. “Komprehensibo sa trabaho,mahusay sa gawaing instruksyon, militar, mataas ang disiplina, hindi makalatsa mga gamit!"

Nang magpasyang magpultaym si Safa sa hukbong bayan, napabilang siya sa yunitkung saan nagsisilbing medik ng platun si Asyong. Dito lalong nahulog angkanyang loob sa kasama.

“Hindi kagwapuhan pero pasado sa standard!Hahaha.” Napansin niyang malinisang kasama, marunong mag-pedicure at manicure. “Marunong din siya magburda,”kwento ni Safa. “Lalo akong napahanga nang makita ko ang husay niya sa pagko-koryo (Choreograph of dance).”

Sa panig ni Asyong, una pa lamang ay pansin na niya ang pagiging bukas ni KaSafa at interes niya na matuto sa mga bagay na bago sa kanya. “Samokan(stubborn), Jologs, ”he remembered in the first few days he met with. Dancing became their common community. Safa's former cheerleader is a martial arts skill.

"He is interested in listening and not arrogant," Asyong said. “Even though it is a hollow, it is not selected. Whatever food in the forest, he will eat. Much to relate to comrades. It is also easy to fall in the masses. ”

Asyong also noticed the skill of the work and its high -time highlights of all times. "Ka Safa has a great help in the work," he said. "He has great recommendations for the development of the work in it."

"On the other hand, he's slow to act!" Asyong's story. "But his weaknesses in participation in armed resistance have not been a hindrance and because of this, I love him."Their fight began with the making of bracelets or polyceras agsam.

"The bracelet design you make is nice, Ka Asyong," Safana recalled she said. "Can I have it instead?"

"For you really" that's it, "Asyong smiled.

Safa laughed as she remembered that she was handsome to Asyong when she was in tears. "The same teeth!" He thought. “It seems like a braces.” He called “the most handsome” to Asi's “melting” smiling.

Since then, Asyong has given him a lot of bracelets that made him laugh. "Unfortunately and I lost it," Safa said.

Although they could feel the mutual attraction, the two were doing nothing. Within the people's army, courtship is prohibited, and the misleading of, new recruits within a time of time to make their work to be spilled. It is also not encouraged to be a secret and one-on-one one-on-one between the "single" to avoid the construction of conditions for secret relationships.

“We're not talking to the two of us. We went through the formal processed, ”Safa said. “I have plans to say goodbye to my collective program(of relationships)To ASYONG. ” In the event, the "program" wants to convey its fundamentals, readiness for relationships and plans for it. When there is no complications, the unit of the occupier unit will convey it. "That's all, he's ahead of me!"

One year after the young man formally settled down, their units set their meeting. "We talked and he told me to cheat," Safa said. "Of course, I answered right away." But despite their relationships, they will be separated for the next two years. Asyong was staying in his original unit to focus on the military political work, Safa was transferred to the mass work.

They are very confident in one “when they are far away. However, they also struggled with the order of the beginning. There are times when one wants to talk to one daily or visit at an sooner. This is a casualties."We met again after two years and we assessed our feelings," Safa said. They referred to their groups of their thoughts. Eventually, they were married under the flag of the party.

As for many party weddings, the brides and their "grandparents" and "godfather," companions and masses had a long experience of marriage, before the ceremony. Here the advice is shared by the advice of the decades of the wedding party's arrangement.

"The advice of our comrades and masses is great," ASYON ATSAFA said. “Some say the marriage is stabilizing. As we grow our responsibilities in the movement, we will have a proportion of implementing tasks. ”

On the other hand, the comrades and masses also advise that marriage relationships should not be a personal relationship and that political relationships or relationships together in the revolution should still prevail.

"It should always be honest with one", "Safa's story.

"We promise one" no one of the problems we face because we are married, it will not be a hindrance to our implementation of our activities, "the two of them said. collective. ”

Between the two daily warriors that come to life-and-death struggle, the promise of "Till Death Do Us part."

Someday, Ka Safa and you are planning to have children. “Two,” said Kayation. "There are four years apart to avoid the leave," said Safa. "But not immediately."

They intend to give the couple relationships to be more and more identity and preparing themselves for family. The challenges that revolutionary women are not aware of, especially the warriors, the time to have children. "It is better to have enough readiness, firmly in proletarian stand for a personal problem, know how to handle," he said.

They trust the party that they will be able to position their children well over time. “The protection of our children does not mean that we are neglecting,” Ka Safa said. He understands that the revolutionary mothers have expanded this responsibility to fight for national liberation.

Against Swedish and Finnish NATO membership!For the socialist revolution!

Following the aggression war of Russian imperialism against Ukraine, 24th february began 2021, the Swedish and Finnish imperialists decided to connect to the North Atlantic Treaty Organization(North Atlantic Treaty Organization). Nato är ett verktyg för USA-imperialismen, idag den endahegemoniska supermakten, för dess hegemoni, riktat främst mot de förtrycktanationerna, i enhet med huvudmotsättningen i världen idag. Sekundärtkaraktäriseras Nato av de interimperialistiska motsättningarna, främstgentemot den ryska imperialismens kärnvapensupermakt.

Nato har fört och för krig mot de förtryckta nationerna världen över. Tillexempel bedriver de flera pågående "fredsbevarande" operationer i Afrika ochdet var ett verktyg i de ökända krigen mot Afghanistan (2001-2021)And MotjoSlavia during the 1990s.

To understand the Swedish and Finnish NATO processes, we must see the interests of US imperialism, that is, its need to counteract the Russian aggression to consolidate its gains in so-called Eastern Europe after the fall of the Soviet social imperialism during the early 1990s. In this, US imperialism also competitions with its European NATO "Allies," in particular German imperialism. On the other hand, US imperialism shifts its focus Eastern Asia to fight Chinese imperialism, whose ambitions are attempted to hold back and for this the United States requires a safe base in Europe. Therefore, the need for US imperialism is found to strengthen NATO's East Flank by causing Sweden and Finland.

But this does not happen against these smaller imperialists' own will. On the contrary, they use the interimmeristic competition between the major imperialists, for Sweden and Finland have their own interests in Eastern Europe, mainly the Ibaltic.Therefore, for the Communists, it is not a matter of defending denimeteristic and false "Nordic neutrality" like the auditors, but the question of fighting to overthrow the rotten imperialist order, which is to its being oppressive, reactionary and folk murder. to reconstitutes the communist parties of the socialist revolution, through popular war, in the service of the World Revolution.

In this large and delayed task, the Communists in Sweden and Finland are directing their eyes to the most advanced struggle in some Natoland, that wants to own the folk war led by TKP/ML, we follow its powerful examples and drug inspiration from it.

Down with NATO, an imperialist alliance!

Long live the revolution and the people of the people!

For the reconstitution of the Communist parties!
