## Ansaldo accident in Ansaldo, Simone Bonori struggles between life and death: procession of workers. Procession from the west to Sampierdarena. Meanwhile, Lapocura of Genoa opens an investigation

**Fight between life and death in the resuscitation department of the Sanmartino Hospital Simone Bonori, 36 years old, specialized worker, seriously injured on the air in the Ansaldo Energia plant in Fegino yesterday afternoon. decided to strike and go down to ask for more security. "Ansaldo: machinery seventies and zeroinvestments, shame!" It reads on a banner brought this morning in front of the Fegino gates. "Come on Simone, we are all count", the other banner, a desperate message given the conditions of man.** The accident occurred at the moment from a lathe has detached himself a metal -component who broke through a bulkhead that has The worker inpieme face hit. Bonori is in a pharmacological coma. "His conditions remaining in their gravity. The prognosis is reserved. At present Ilpaziente does not require surgery," reports the San Martino medical bulletin this morning. The 36 -year -old has been working Adansaldo Energia for about three years. He lives in via Podestà, behind Pra '. **"Today is a day of**

**sadness but also a day of anger - he said - the responsibility of what happened will be ascertained by the Manon judiciary we can not make a reflection, the car on which Simone èdel was worked on 1979, is 44 years old, Anyone can understand the degree of safety that you can make a machine of 44 years ago, even if it is certified ". " It is not a problem of security culture, as Rixi said yesterday, lasicidity is an investment problem , we have to put money, either the new machinery or we on these machinery we don't work anymore, they cobite the managers to work. Here is what the recapitalization is for ", the trade unionist has.**

# New asylum policy in the USA - bidges or Trump?

Author: DEM VOLKE DIENEN

Time: 2023-02-22T19:40:53+00:00

Images: []

Tags: ['USA', 'Abschiebung', 'Trump', 'Migration', 'Biden', 'Asylrecht']

Category: None

The US government around Joe Biden presented new immigration regulation on Tuesday, February 21, in January. After a 30-day phase of discussion, the fact that the U.S. immigration policy is currently still determined by the time of the Trump government. Biden not only only comes into Trump's footsteps with this new regulation, no - this new asylum policy is still a lot more reactionary than that of Trump has ever been.

In May the politics ends with the nickname "Title 42", which in the past 3 years as part of the Corona measures in the USA, the right of asylum was able to cover the right of asylum. refuse to enter the country. According to numbers of the US-inch and limit protection behavior In the three years since the appeal to this rule in March 2020, 2.5 million asylum seekers have already been refused to be available to the United State Entry.

The appeal to the "Title 42" under Trump provided his time for a lot. As part of Biden's campaign, this immigration policy should be reserved for a long time. Trump himself, but should finally fall away and something new should be: something even more reactionary.

From May it should no longer be possible to apply for asylum within the borders of the United States. This is only possible abroad and therefore makes it impossible to apply for asylum for refugees who come to the country from a need immediately. For this purpose, an app should be introduced, about which you can make an appointment with the agile, but just before the Grennzuit. A

violation of this new immigration regulation has resulted in a 5-year lock before you can apply for another.The obviously cynical thing about the whole is of course that this new law is launched by the current US President Joe Biden. Exactly the bidden, whose whole election victory was based on it, at least "no Trump" is based, an even more blatant, even more reactionary asylum policy is introduced than it has ever done. Even more of the same. Domesty difference in the immigration policy of the two is that the bidding does not constantly swarf in the Großenwahn from wanting to build a huge wall on the Derus-Mexico border-_*Noch not* .

# US military presence in the Philippines, may fire nuclear war

Author: Philippine Revolution Web Central

Publish Time: 2023-02-22T93:00:00-04:00

Modified Time: None

Description: Through the presence of troops, military and nuclear arsenal in the Philippines, the US places the entire Asian region in the "brink of a nuclear armageddon." This is PR's warning

Images: [' us-china-tensions.png ']

Categories: ["People's Struggles"]

Type: article

Through the presence of troops, military and nuclear arsenalnito in the Philippines, the US places the entire Asian region on the "brink of a nuclear armageddon." This is the warning of Prof. Roland Simbulan in a webinar entitled "countercurrents: foreign policies and anti-imperialist struggle launched on February 4. Simbulan is a proposal at the University of the Philippines and Vice President of the Center Forpeople's Empowerment in Governance.

"The Philippines is in strict competition between the US and the Chin is due to its geopult location," he said. The country has long been a part of the US "nuclear infrastructure, which serves as a port of large warfare carrying nuclear

weapons and runs nuclear nuclear. “We're part(Pilipinas)of the offensive first islandchain of the siege in China due to the mutual defense treaty, visiting forcesagreement and the Enhanced Defense Cooperation Agreement, "he said.

Through these treaties and agreements, the US military military has maintained the Philippine military hegemony, even though it has no large permanent military base in the country.

"The US has long considered the Philippines a crucial location for its own long - term security," Prof. Simbulan. The Philippines is called "the US" of the Philippines in Asia which serves as a prevalence of maritime and aircraft not only in the South China Sea, the Conditions of the Asia-Pacific and the Middle East.

The US control and its "steel relationship" in the Philippines have not been disappointed by the resentment and hypocrisy of the recent presidential Rodrigo Duterte to heal it to China.

In fact, the US holds in the Philippines in Duterte's term. Under its term the old and new-exported-Miliatr are being held under his term. Under him, he also began the "renegulation" of the EDCA ATMDT to provide additional privilege and extra-territorial resources to the US in the country. He also began while he was still the negotiations for the use of Cerberus, an American company, the Subic shipyard in Subic for repairing, refueling and USNAVY.These visits have set up construction accelerating in the first five US military base in the country to spend \ $ 100 million, and the added four more locations can be set by their troops and weapons. These locations give the US a advantage for the Operations are quickly launched in the event of a rivalry in Taiwan ohabang that the US Navy is conducting challenging "operations free of charge" in the South China Sea.

***warfare***

On February 4, Usapara's elevated office arrived in the Philippines. The plan for the launch of more Masisinsin and large US military in the Philippines, including Balikatan 2023. Last 2022, announced that the AFP has announced that there will be 469 others' US military activities in the country for the year 2023. It was higher than 461 US military operations by 2022 and 353 in 2021.

The exercises included are part of the US military offensive to promote China. They are jointly and exclusively to thousands of trainers in warfare(war exercises)that the US is launched in the region.

Although in April the 38th series of Balikatan, the annual "military training" between the US and the Philippines armed troops, American forces are already in the Philippines. On February 20, the US andPhilippine Army launched a warfighting functions exchange, a 3-day conference in preparation for the Salaknib 2023, the two-serviced training to launch before and after Balikatan. This training will be joined by 3,000 troops from the US 25th ID and the 5th ID, 7th ID and1st Brigade Combat Team of the Philippines. Salaknib starts on March 5, for 20 days.

Meanwhile, the Balikatan 2023 will be joined by 16,000 troops, most of its history. Exercises will be held in Ilocos Norte, and Batanes, Fugaat Calayan - islands in Taiwan Strait.In addition to the exercises, the joints of the US and Filipinos will be launched again in the South China Sea. It will directly involve Filipino troops in its role in ships and forces of China.

***Dangerous Nuclear Plants***

One of US Vice President Harris was pushed when he came to the country as the US set up nuclear plants on the veil of resolving the Philippine Crisis. Under the "123 Agreement Negotiations for Civilnuclear Energy Cooperation," nuclear plants will be built in the country(small modular reactor)developed by the US Army and tested on its military bases.

In February, the Pangasinan People's Strike for the environment of the local government revealed for the construction of six nuclear, all in Labrador, Pangasinan. The town is facing Itosa Lingayen Gulf, one of the richest fisheries in the country.

Makabayan representatives warned, two using US technology in the country - civil and military. Many aspects of the US invasion program are very easy to use for the war, even the contenders for civilians.

In fact, the US is now developing Project Pele aimed at laying the "Mobile Nuclear Power Plant" or "Battlefield Nuke Reactors" which is part of its "war theater" in the Asian region. It will appear that the US will use the Philippines as a laboratory of this project, which is still in the experiment.

***Urgent and required resistance***

Currently, the possibility of using nuclear weapons is increasing the US and NATO in Ukraine, on the Korean Peninsula, Taiwan Straitsat South China Sea. Thus, the people's need to hinder it is becoming more and more urgent.

"The growing threat of nuclear war is pushing all those who love peace around the world to prevent its possibility," according to Prof. Simbulan. "Let us prevent the US provocations, as well as China's military operations, which may erupted in a rude war for power."

# RCEP straps, more torture of the Filipino people!

Author: Philippine Revolution Web Central

Publish Time: 2023-02-22T96:00:00-04:00

Modified Time: 2023-02-23T05:12:38+00:00

Description: In the Senate's rating yesterday at the RCEP (Regional Comprehensive Economic Partnership), the Marcos Jr. regime further mourned. In the hunger and poverty of the Filipino people, especially the peasants

Images: [' makibaka-makabayang-kilusan-ng-bagong-kababaihan-1024x502.png ']

Categories: ['Economy', 'Politics']

Type: article

Senate's rating yesterday at RCEP(Regional Comprehensive EconomicPartnership), the Marcos Jr. regime has grown further. In the hunger and poverty of the Filipino people, the peasants are especially.

Despite the opposition of many sectors in the Philippines' enclosure to the RCEP, the regime has pushed the ratification to keep up with the economies of the Asia Pacific and to recover from the pandemia. RCEP is a consensus for "free trade" between ASEAN countries and including China, Japan, South Korea, Australia and New Zealand.(equivalent to 30% of the whole world)Attake GDP for $ 26.1 T(29% of the world), which is greater in Europeanunion and the US-Mexico-Canada Agreement. It is also an instrument of China in the US as the leading economy in the world.

With the RCEP included, the importation of products is more likely to be imposed or otherwise the tariff is very low. Thus, our agricultural production will be more likely to be covered by imports cheaper, especially and this is the government's constant solution to the Maykrisis food. It does not solve the crisis in rice, meat, sugar or onion. Instead, it will kill the livelihood of many Filipino people. Also, the local industry is more likely(Small and Medium Enterprises).

On behalf of development, the puppet regime insists on the RCEP Agreement as a result of the WTO failure and other economic agreements entered into by the Philippines. It provides freedom so that the imperialist villagers can more afford our natural resources, the bourgeoisiers will grow their profit and have a

large crime of bureaucrat capitalists. , Highness of disadvantage, low wages and diligent productivity and workers' productivity and development. It creates an economy that rely Foreign investment and very bully of the crisis of the capitalist system.

Any regime in power will never enforce a policy, because of the essence of our own economy, because of the corrupt and corrupt system that prevails in imperialist order. Thus, the people must oppose and fight the RCEP and other similar state -collapse.

At the same time, activists at the revolutionary should promote and refine the call for national industrialization and land reform, contrary to the regime's neoliberal policies. These include calls for subsidies and protection in local industries and foreign investment regulations and focusing on strengthening local industrial and creating jobs in the country. The Makibaka is calling for this membership to bring this call-education to vigorous propaganda-education, as we continue to reach the vast masses of the people. We continue to awaken them, in the mass organizations and revolutionary organizations and mobilize to combat imperialism and locals who have been involved which makes it difficult for the people, and mobilizes them stepping on the success of the Philippine Revolution to Socialism. #

Type: article

The National Democratic Front of the Philippines-Palawan Sama Palaweño and the whole country are calling to support the struggle of the farmers and natives at the Brooke's Point against the disastrous operation of the Ipilan Nickel Corporation. Since February 18, the Mina's Mina's Mina has been dating Brgy. It is important to assert the national government's operation of the operation of the company that has been the result of the intense collapse of the entire town in January.

The Brooke's Point's struggle is justified in the union of the people of preserving the ancestral land of the native Palaw'an and the environment covered by Mt. Responding source of citizenship. This nature is destroyed by the INC and other provincial companies in the province by destroying the forest and the explosion of large chunk of land for mining, which is not benefiting from the citizen.

Although there is no Mayor's permit, INC operations are used as the departure of the previous Duterte regime in the mining moratorium. It involves reactionary government agencies such as the Department ofEnvironment and Natural

Resources(DENR)at National Commission on Indigenous Peoples(NCIP)For Free, Prior and Informed Consent(FPIC)From the people. In addition to the INC, Luciotan's Macroasia Mining Company will also return and two other Mina Mina's companies are set to enter Brooke's Point. When they continue, Mt. Brooke's Point will be worse and worse during the rainy season. When this happens, the broad rice fields, coconuts and banana at Brooke's Point that will provide the whole province will be destroyed with the death of the people's livelihood.

Modified Time: 2023-02-23T05:30:38+00:00

Description: In unison with the people of the world, the Communist Party of the Philippines in the South has attacked the ongoing inter-imperialist war in Ukraine under the US. At the same time, too hard

Images: [' cpp-southern-tagalog-1024x576.png ']

Categories: ["People's Struggles", 'Politics', 'Regions']

Type: article

Citizens of the world, the Communist Party of the Philippines in the Southern Ages has attacked the ongoing inter-imperialist war in Ukrainesa led by the US. At the same time, we also strongly criticize the US's continuous motivation of another field of war in Asia Pacificaban in China.

It's been a year since the war in Ukraine broke out. The proxy war that the US-Nato has launched against Russiala has gradually becomes a long time after the first efforts for peace negotiations.

In April 2022, Russia agreed to enter negotiations at the Turkish initiative but Volodymyr Zelensky, President of Ukraine Sasuld by UK Prime Minister Boris Johnson, rejected it. Instead of increasing, the US-NATO intensified the war by pouring billions of weapons in the puppy of this government and armed army in Ukraine. Nations General Assembly to reopen peace negotiations and implement the ceasefire to finish Gerrasa Ukraine.

This war suffered the civilian citizens of Ukraine and the neighboring towns. As of February 12, the UN Office of the Highcommissioner for Human Rights recorded 18,955 casualties among civilians of which 7,199 were killed and 11,756 were injured. Besides this, up to 7.9 millionaians have been evacuated due to war. According to Ukraine Prime MinisterDenys Shmyhal, more than $ 700 billion in the national economy of the National Economy of the National

Economy until December 2022. Since the Russian -launched war and sagitna are far from stopping, the situation will be intensify to the civilians there.While the Ukrainian people hated, Zelenzky's uscongress hero, who has no one else to boast about but the US-Nato's blind agent. Zelensky has a great deal of support for Amonito in exchange for power and "honor" at the expense of his guards. On the other hand, the US is intense crisis so it is obligatory to continue its prescription war in the thunderous economy using Angukraine as a pioneer against Russia. Due to the war in Ukraine, major US defense companies have evaluated where its government is the main buyer of the products it creates. Five US defenses of Lockheed Martin, Raytheon Technologies, Boeing, Northropgrumman and General Dynamics, remain leading the income by the end of 2022. The annual $ 700 billion provided by the US government in defense is primarily to the revenue and profit of these companies.

The US needs are increasingly increasing in the midst of continuing the impact of being suffering from one's own people. 2022 The recession of the US economy began after the negative growth of its gross domestic product was recorded in the 2 following rooms of the year. It was feared that its recession would begin the economic recession of the second part of 2023.

Meanwhile, proxy war -like in Ukraine is about to have a Saasia Pacific against China. Lt. Gen. James Bierman, commander of the Third Marine Expeditionary Force of Ngus Armed Forces and Marine Forces Japan, how long the US has planned the war against China as they did in Ukraine. Bierman said that it was part of their preparation of theater in Japan and the Philippines. It was also confirmed by an internal pentagon order by Gen. Mike Minihan, chief of the Air Mobility Commandna states that it is their primary purpose to prevent China, and that it is necessary to defeat it.

This is where the US presence in Indo Pacific - Tawiwan, Philippines, Japan, Singapore and South Korea, is considered its first islandchain to surround China. The US military activities are increasing and increasing and mentioned puppet countries.In the Philippines, the enlarged military presence has coexistent the US agreements between the US and the reactionary GRP. These include the MutualDefense Treaty, Visiting Forces Agreement and the Last, the EnhancedDefense Cooperation Agreement(EDCA). Sa kabila nang pagpapatalsik ngmamamayang Pilipino sa base militar, nagagawang ikutan ng US ang lahat nglimitasyon sa pagpapanumbalik nito sa bansa sa pamamagitan

ng EDCA. Mula nangipatupad ito, tuluy-tuloy nang ginagamit ng US ang Basa Air Base sa Pampanga;Antonio Bautista Air Base sa Puerto Princesa City, Palawan; Benito Ebuen AirBase sa Mactan Island, Cebu; Lumbia Airfield sa Cagayan de Oro City; junglebase sa Fort Laur sa Nueva Ecija at ilan pang "sikretong base" nito tulad ngNaval Station Carlito Cunanan sa Ulugan Bay, Palawan. Nitong buwan lamang,inianunsyo ni Marcos Jr. na madadagdagan pa ng lima ang istasyon ng EDCA sabansa matapos ang pagbisita ni US Defense Secretary Lloyd Austin.

Bago pa ito ang pagbisita ni US Vice President Kamala Harris sa bansa na dalaang kasunduan hinggil sa pagtatayo ng missile systems sa bansa. Ang planongmissile launching systems at iba pang pasilidad militar ng US na itinatayo atitatayo pa sa Pilipinas ay magsisilbing magnet sa mga atakeng Chinese labanPilipinas. Garapalang nilalabag ng US ang soberanya ng Pilipinas sa paggamitsa bansa bilang base para sa paglulunsad ng mga dayuhang gera nito.

Sa gitna ng lahat ng ito, ang mamamayan ng buong daigdig ang nagdurusa sapagpapasasa ng mga imperyalistang bansa sa pangunguna ng US. Ang ipinataw namga sangsyon sa Russia ay ibayong gumatong sa pandaigdigang krisis dahil sasinira nito ang suplay sa buong daigdig laluna sa larangan ng produksyon nglangis, trigo, abono, rare earth metals para sa produksyon ng microchips atartificial intelligence na kailangan sa industriyang militar at iba pang hilawna materyales na pangunahing nagmumula sa Russia. Lumikha ito ng artipisyal nakawalan at/o kakulangan ng suplay ng langis, pagkain at iba pang hilaw namateryales sa buong mundo.

Meanwhile, the people of the countries of the Inspan and Ukraine and Ukraine are suffering from the greatest violence and poverty. As imperialism is increasing the labor and ability to create society, it warns of the expensive war of the people especially the people.

The people must bind and unite to combat all forms of the insurgency-imperialist wars that are so overwhelmed by mankind in the world. To do this, it is necessary to call the world to prevent the Interalist war and if it is unable to prevent the interviewer of inter-imperialist war to win the revolutionary oppression of their people for national independence, democracy and socialism. It is possible to unite mankind in the re-erection of global socialist revolution to

overthrow imperialism-the late and dying stage of global capitalism which is the root of global violence, exploitation, oppression and poverty of mankind. ###

Description: The Communist Party of the Philippines is united with the struggle of the Dumagat, Re-Montedo and all the people affected by the Dample Project Left Dam. The Party stands up

Images: [' cpp-southern-tagalog-1024x576.png ']

Categories: ['National Minority', "People's Struggles", 'Regions']

Type: article

The Communist Party of the Philippines is united in the South of the Strengths of the Dumaga, Re-Montado and all the people affected by the Damn Left Dam Process. The Party and the entire revolutionary movement of TK has maintained that there is no other good project to the project for the people of Rizal and North Quezon.

The ongoing protest of indigenous peoples of North Quezon and Rizal proves to be the leadership of the Dumagat and Remontado that the government's imperialist agencies have announced that all families affected by the project have announced that all families affected the project. The Metropolitan Water Sewerage System is obviously invented(MWSS), Department of Environment and Natural Resources(DENR)at National Commission on Indigenous Peoples(NCIP)In a false report of the affected citizen to provide the project. The previous US-Duterte regime and current US-Marcos II regime and the current US-Marcos regime in the operation of such a project of the justification of the firing water shortage in Manila. They want to capture a huge culprit in the project that serves as the debt of the recent US-Duterte Sachina's tyranny regime. Thus, the dancing pan of the recent current regime in the people's opposition, groups that is temporary, is not surprising.

The Dam will subdue some communities including their livelihood and the ancestral lands of the Acestors and Remontado at the Tanay, Rizal Atgeneral

Nakang and Infanta, Quezon. Far from the alleged number of government that only 15 families are affected by the fact that more than 400 families are in the process of communities. It is estimated that up to 100,000 people are affected by the project especially during disasters. General Nakan's citizenship is already aware of the damage caused by the dam. The tragedy that occurred in 2004 was not forgotten by a series of typhoons sinking into the town of Infanta and some parts of the towns of Generalnakar and Real.The reactionary state is desperate to continue projects on behalf of the selfish interests of foreign capitalists and the large-scale bourgeois-comprador-landlords. To prevent the people's struggle, the units of the 80th and 1st IBPA have been in the limits of Quezon and Rizal that continue to sow terror in launching no-fever focused military operations and retooled community supportprogram operations.

The people should support the struggle of the minority of the Dumagat atremontado, ten people of Rizal and Quezon which will be affected by the Left Dam. The local governments of Tanay in Rizal, Infanta and General Nakar in Quezon should be held in the process against such a project that will put their people in danger. They must unite the people Parasingilin the US-Marcos II regime and its imperialist agencies for the sake of the people's welfare. At the same time, they should be evacuated to the Miitar troops in the minority communities and farmers around the project.

**s**

With great sadness we were informed of the early loss of S. Sergios Marouda, a fighter of the labor -popular movement and a member of NAP, after a fierce and unequal battle he fought to keep in life.

S. Sergios was one of the fighters who offered generously and meanutia to the movement, so he had a special place and appreciation of both the political and wider social.

The contribution of his organs after such premature death of the sealing of people dedicated to humans, the greatest ideal, for all of us, we are struggling for the communist perspective.

The KKE's Larissa Organization(ML)It expresses its warmest condolences in its family and to the NAP's S. for this great loss.

A Nova Democracia's weekly leader article 07/02/2023

**Sensationalization only seeks to hide the military crisis**

The recent testimony of the famous unknown, Senator Marcos do Val, what is implies Bolsonaro in the bargain planning of the so-called "coup draft", does not address anything new, but is probably a demonstration of what is widely known. In a diploma, the senator said that the former president met him and that the content of the conversation was to carry out a plot to arrest Alexandre de Moraes and cancel the election. The earlier leader and bolsonarist Daniel Silveira also participated in the conversation - yes, the densely -made bully who gave a strange performance of MOT and cried almost every day he was arrested for the first time, in February 2021.

No serious question that Bolsonaro was intended to carry out a dump, and to say it is now to throw water at sea. These "layoffs" do to solve the real problem - that, by the way, already have a soap opera due to the sophisticated sensationalization of the globonetwork, with the aim of making the very serious military crisis appear to be serious and enter into the collective psychology like something Routine and unimportant, to try to maintain the stability of the old order. Not to mention that Marcos do Val does nothing but play the role of single fish in upset waters.The heroes of the bourgeois democracy, from its high palaces and in sineman -known leadership articles, do not express a single word in protest of the eight years of custody that ACFA has imposed on the nation. Luiz inácio, for example, who did not trust the military, appointed as army commander Tomás Paiva, the Sammemannen who was the protagonist of Eduardo Villas-Boas' tweet in 2018. A maneuvering hindered the current president of the Republic from sitting to the president imprisoned for more than a year and a half. Is that such a military intervention will be completed, step by step?

It is clear that the military crisis is very serious, and the secrecy government - operated by ACFA, through its custody over the other institutions - aims to increase the maximum power to maximize the maximum utilization of the people and greater surrender of the nation to imperialism, along with it Increasing the limitation of democratic freedoms, in the introduction of renewed semi -seed and semi -colonial "Project of Nation". The reconciling, opportunistic and liberal forces will not and cannot do real resistance. It is up to the working masses themselves to do so, but just on condition: that they have a brave and consistent leadership to be trusted. This is role and the urgent task of the revolutionary forces and the true democrats in our country.

# CPP Statement On The Recent NPA Partisan Operation In Albay Province

Author: Alan Warsaw

Publish Time: 2023-02-23T05:54:23+00:00

Update Time: 2023-02-23T18:05:12+00:00

**Marco Valbuena | Chief Information Officer | Communist Party Of ThePhilippines**

**February 23, 2023**

The partisan operation staged by a unit of the New People’s Army in a marketplace in Barangay Cotmon, Camalig town, Albay province against a supply unitof the 31st Infantry Battalion, was a legitimate military operation againstcounterinsurgency troops of the Armed Forces of the Philippines(AFP). Twoenemy troops were killed and a .45 caliber pistol was seized.

Military supply lines comprise an important aspect of war operations. Thesoldiers, in fact, were armed and ready to engage in battle when ambushed.Disrupting the AFP's supply lines are among the tactics for waging guerrillawarfare.

The claim of the 9th ID that the troops were preparing for search and rescueoperations over a missing Cessna plane is a sorry PR attempt to gloss over thebrutal counterinsurgency record of the 31st IB, in the hope of gaining publicsympathy.

The 31st IB, to which the two troops belonged to, is an active AFP unitengaged in counter-guerrilla operations and is responsible for scores of humanrights violations and war crimes. It is the unit behind the May 8, 2020massacre of five peasants in Bulan, Sorsogon as well as other cases ofkilling, torture, illegal arrests and detention, threats and harassment ofpeasant communities in Sorsogon and Camarines Sur.

The partisan operations of the NPA in Albay province point to the fact thatarmed guerrilla operations in Bicol continue to expand. It shows the abilityof the NPA to deploy teams anywhere in order to strike at enemy militarytargets.

***review The Blood and Cement Book. Strike and massacre of workers in Santa Barbara(1963)_, by Andrés Jáuregui and Renán Vega, makes a recovery, yanalysis count of a event that happened sixty years ago, where a group of the Cairo Cairo El Cairo(Antioquia)They started a strike, September 1962, on the basis of the discussion and approval of a petition fold by the union; Given the negatives of Ne-Gociation, they fought from January 23 to February 23, 1963, against intransigence, outrage and injustice, the outcome was the unfortunate massacre of the 23rd defender, executed by the Colombian State.***

It may interest you _ the strike, the massacre of Santa Barbara and the conquestsOras _

In this massacre twelve people were dead, more than thirty injured andochent arrested, the situation was silenced and misrepresented obeying the particular interests of entrepreneurs and politicians, this was the case of the Minister of Government Eduardo Uribe Botero who, being a member and member of the Directive Advocate of Cemento El Cairo, manipulated the situation in favor of his personal interests; The governor of Antioquia, Fernando Gómez Martínez, owner of the main newspaper Antioquia *el Colombiano* and Shareholder Decments Argos, defended and protected the cement company, ordering the use of armed force by the army; and Belisario Betancur Cuartas, minister of work and then president of Colombia who, in contubernio with the Yamencados, decided Law as a subversive and community to, on the basis of that argument,

legitimize death and repression of social protest.

In its six blood and cement chapters. Strike and massacre of workers in Santa Barbara(1963)_ It shows us the daily life of the region where the massacre, the national policy of then, the development of Lahuelga, the massacre, its responsible and the historical memory and inheritance; Everything is recovered thanks to the author's field work, in order to be able to rely on the testimonies of the survivors, as on the materials of theépoca.

This book had a predecessor that although it is not a reason for the review, it is worth mentioning it for its subsequent study and dissemination which is entitled *Lalacre de Santa Barbara* .( *NATIONAL FENDER* , 1958-1965), of the Editorial La Pulga, Medellín.

*We document the leaflet of the Red Women's Committee - FRG on the occasion of the 8.M Arz 2023, which was sent to us .*

*Proletarians of all countries, unite!*

**Women, K vaccinates and defends you: against the wave of inflation and militarism!**

On this year 8th March - the International Women's Fighting Day - the attack war of Russian imperialism on Ukraine is a bit overnight. Since he started, the situation of the working class and the people in this and all other countries in the world has worsened massively. A wave of inflation has had the cost of living in all areas exploding, together with such a high level of inflation that has not been in Germany since then and the Second World War that catches up for our wages before we can spend it. No matter what the imperialists try, the economic

crisis that has been unfolding since recent years does not take a grip. Every time the situation only worsens, and it is unloaded onto our shoulders, that of the working class and the people. System is. **against imperialism and patriarchy!**

All of this, the wave of inflation, the falling real groove, the bad supply with daycare, hospital and much more, meets the whole working class, but the women of the working class meet even more, because we are neglected and exploited by imperialism and patriarchy. All over the world, the situation in which the women of the working class and the Volkerleben. That is why we have double the reason to rise against this system and to unleash against this. The imperialists know that, so try to slow down our struggle, relieve it in toothless protest, to steer out -of -the -day lanes in the system, and attempts to split with their rotten and reactionary ideology. To combine class bangers and sisters and to unleash our struggle in a huge storm against denominationalism and the patriarchy. Instead, every Fursich should stand up for yourself or yours. This is not the way for women of the working class, that's not our way!Daspatriarchy can only be destroyed if its economic base ceremony becomes: private property, today imperialism. This requires proletarian women's movement, carried by the vanguard of the working class, the Communist Party. And it has to be closely connected to all oppression and exploited all over the world. Because only in communism there is no longer private property, only in communism can emancipation of the woman become reality. That is why we also get on this 8th Marz side to the women of the working class and the people of all lords for a redirecting red future.

**into the proletarian women's movement!**

Type: ['Rebellion']

Note: This text was published by Revolutionary StudyNetwork on December 24th, 2022. It isthe first public polemic to combat the mischaracterizations of the CI-ICpiece about the situation of revolutionaries in the US. I amreposting it here because it is necessary for us to show that the events ofSpring 2022 were not a liquidation or a split but the overthrow and abolitionof revisionist organizations and their revisionist leadership. Sharing doesnot imply endorsement or association. The RSN is a different group of peoplethan the RSG, who wrote a statement partially responding to the CI-IC thatwas previously posted here . There are noticeably different lines between the twostatements; we publish both with the hope that it will stimulate discussion.-Rita

**By MarLynn Typhus**

Acting member of the RSN Prep Committee, Prior member of the now defunct TotP Austin Support Committee and broader “CR-CPUSA” led movement.

**An initial response to the anonymous CI-IC screed: A statement of thesituation of the Maoists in the USA**

***Anything that could reasonably be considered liquidation has alreadyoccurred. We insist not only would this be absolutely wrong on multiple accounts, but infact it is our duty as aspiring revolutionaries to expose those who wouldmasquerade as such while harming those they claim to stand for; all whiledeviating from and disparaging the very theories and ideology they proclaim touphold. By their own actions, those pathetic few hiding behind the title of"CR-CPUSA" have driven a considerable number of progressive elements away notonly from their repulsive fronts, but in many instances from Maoism, fromMarxism, and from revolutionary pursuits in general. They will insist theseare all exclusively failures of the individual, but what they won't tell youis that they've already been abandoned entirely — nor that this has occurredin direct response to an explicitly clear common denominator: the "CR-CPUSA".Now, much as before, they have been left to continue playing at being somehowmeaningful to revolution in the USA, but now they do so alone, aninsignificant clique which insists it's anything but, populated by gangstersmasquerading as revolutionaries.***

I declare so once more, and challenge the so called "CR-CPUSA" to materiallyand significantly refute their isolation, their abandonment, their"liquidation", to explain how upon discovery of a mere handful of theiractions, a glimpse into the actual scope of their involvement, the entirety oftheir rank and file decided swiftly and unequivocally the most appropriateresponse was to materially separate themselves from this "committee" — onewho's full scope of involvement only became known to us after the explicitabuses of its few direct representatives could no longer be kept hidden,despite every effort to do so under the guise of "Marxism", or simply byisolating, expelling, and vilifying those who criticized and struggled againstthis sorry state of affairs from within. For those who would still suggestthis is emblematic of fault primarily or exclusively within the rank and file,as opposed to its leadership, the "CR-CPUSA" has a revolutionary bridge tosell you. 1

I will now conclude this statement with a charge against the anonymous authorof this piece, and a warning. Intentionally or not, the CI-IC has spread, onmore than just this occasion, gross misrepresentations of the revolutionary"situation" within the US, particularly as it regards and on behalf of the"CR-CPUSA", which we have come to learn the hard way. Those who have notperformed thorough investigation or were not themselves directly involved haveno right to speak on the matter, certainly not in any authoritative manner.Precisely what authority does an anonymous group of self reported"revolutionary intellectuals" operating outside of our country hold to speakon our situation? I state authoritatively as a first-hand participant and

onthe basis of my investigations thus far, from reading this screed, either theCI-IC has simply regurgitated what has been relayed by a representative of the“CR-CPUSA” without any investigation of these claims, or they areintentionally spreading falsehoods on their behalf. If the CI-IC would likeassistance checking the veracity of their egregious statements concerning oursituation, before propagating them internationally as matters of fact, I’mcertain we can accommodate them.

If the “CR-CPUSA” wishes to engage in “two-line-struggle” internally, we wouldpoint out this requires we exist within a shared organization, something theselonely characters realistically no longer have, and that we will never againshare with them. All the same we would ask of them the same fundamentalrequest they’ve thus far refused; to state their actual lines clearly andpublicly to those involved so that a true line-struggle may actually takeplace. If perhaps they could have satisfied this necessary obligation of anyso called “Marxist” leadership, before demonstrating themselves soconsistently and explicitly incapable that it led to the collapse of theirmovement, these struggles may have been had internally. Alas, they have dugtheir own grave, and not one of us ever intend to hop back in with them;however we’re quite happy to perform the burial, and welcome all those whotruly aspire towards revolution within the USA to join us in these and manyother crucial steps that must be taken on this path.Finally, the warning: at this present moment, the “CR-CPUSA” is isolated,their movement collapsed by their own actions — I state this as a first-handparticipant who has, though far from completely, investigated this particularclique and the now defunct movement associated with them. However, they aremost certainly endeavoring to rebuild, and if those of us who came to knowthem do not speak up, they will likely succeed. They will succeed in theircontinued obstruction of revolutionary development in the US, in much the samemanner as the PSL, the DSA, and their own modern namesake, if left to theirown devices. Whatever petty “Marxist” phraseology they may espouse, we insistupon the judgment of their actions, as well as their inaction. We who havewitnessed their actions first-hand, standing in direct opposition torevolutionary development, will suffer them no more and no less than any otherindividual or entity that stands against revolutionary development, and weinsist all with truly revolutionary aspirations must do the same. Now I chargeyou, readers: do not allow this gross obstruction to continue, let us finishwhat we started, let us resume the revolutionary march, together, deposing

ordestroying all obstacles that obstruct our path forward, in whatever twistedforms they should happen to take.

Some may note the briefness of my response, and think it lacking in somemanner; to those I say first and foremost, worry not, we have every intentionto perform a thorough investigation in due time, to analyze the “CR-CPUSA” andthe movement it once led under the full scope of Marxism, and to publish ouranalysis publicly for all to see and critique. You may ask “what’s taking youso long then, if it is so important?”: I say to you, unlike the “CR-CPUSA”, webelieve if something is worth doing, it is worth doing correctly. To do socorrectly, in a manner that is of true benefit to those involved and anybroader movement, and harmful only to those who have committed crimes againstsubordinates and masses alike, will require considerable time and labor. Thisis primarily due to the extreme scope and scale to which “Marxism”, “secrecy”,“security”, and outright lies were effectively employed to keep the vastmajority of those involved isolated and in the dark, not just from the “CR-CPUSA” but from each-other as well.

***Footnotes***

**1.** ***George C. Parker*** was an American con man best knownfor his repeated successes “selling” the Brooklyn Bridge, as often as twice aweek for several years by his account. He made his living conducting illegalsales of property he did not own, who’s actions and infamy produced the commoncolloquialism, “I have a bridge to sell you”. Similarly to George C. Parker,the “CR-CPUSA” has successfully sold the idea that they stand at the helm of aburgeoning revolutionary movement for quite some time, and that they alone arecapable of leading such a movement. They are presently aiming to continue withthis scam, and will succeed so long as folks remain who will buy into it. Asto why they are doing so, the answer is quite simple; much like George, theyare enriched and benefited by doing so.

Students protest against the increase in tickets in Petrolina. Photo: Jamil Barbosa / Grande Rio FM

On February 15, students from Petrolina public schools(PE)They protested against the increase in tickets made on February 1st. Asked bands and posters that charged the reduction of tariffs and free passage, the students camped in front of the City Hall after traveled downtown streets.

According to a note circulated by the student mobilization, “with this increase, Atarifa in Petrolina is now the most expensive in the Northeast and one of the most expensive dopaís, leading 19 capitals. In addition, the Atlantic-referring to the monopolistic company-received more than R $ 8 million from the city with giving giging that it was having damage to the pandemic, committing to non-compliance with the tariff ”.

In the municipality of Petrolina, Sertão Pernambucano, the urban bus fares increased from R $ 4.10 to R $ 5.00. The almost22%readjustment has

generated revolt among workers, who denounce the precariousness offered, and demonstrations of students from public schools in the city.

Using public transport daily to go to work, Healthbucal Assistant, Salete Brito, told the report of **and** that the “increase is an absurd truth, an abuse against the population of Petrolina”. “Charging caroeles know, right? Now, improvement… zero!”, Said the assistant. Regarding the fleet's and the quantity, Salete claims to be insufficient. “Bus misses more to stop the number of the city's population. The population is immense for bus aquantity ”.

The Erica Raquel trade reports that the public transportation service of theity needs improvements: “You need to improve, right? They charge a very high value; increase and have no improvement!”. In the same tone, other workers who did not want to interview made their readjustment and demonstrated support for popular manifestations to the tariff increase that begin to be organized in the city.

When asked about the demonstrations, the population has shown support. “It has to manifest themselves. I myself passed in front of City Hall Paraver, ”said a city center worker who declined to be named.Written by: Support Committee of the São Francisco Valley

**LET 'S DEVELOPE THE REVOLUTIONARY STRUGGLE AGAINST THE IMPERIALIST WORLDWAR PREPARATIONS!**

--DECLARATION--BasicallyThe ongoing proxy wars and trade wars, the emerging trade blocs andmilitary blocks, allotment of heavy military budgets, manufacturing colossaland mass destructive weapons, modernizing military forces and several types ofpreparations for world war even in space shows the neck and neck competitionfor the economic resources and political control over the countries of Asia,Africa and Latin America including several east European countries. All theseindicate the intensifying inter-imperialist contradictions and the scramblefor the re division of markets and world hegemony.

The world imperialist system, decadent and decomposed, in its inevitable one-way march towards the grave, has unloaded on society the terrible consequencesof the increasingly acute world economic crisis, and with it, has extended anddeepened in all continents social, health and environmental crises. For theinsatiable imperialists, the monopolization and accumulation of capital at thecost of the global exploitation of social labor, the usurious export offinancial capital, the destruction of nature, the plundering of the oppressedcountries, is not enough. The crises of their system, mainly the economic one,impel the imperialists to carry out a new division of the already dividedworld. A new division that can only be achieved by economic force, financialforce, military force, the force of the world war between a few imperialistcountries in decline and others fighting for world hegemony, as a product ofthe inexorable economic law of the uneven development of the imperialistcountries.

But the same economic and social causes that push the imperialists to wars ofrobbery, become unlivable, unbearable material conditions for the slaves ofcapital, material conditions of the rebellion of the exploited

proletarians,peoples, nations and countries oppressed by the monopolies and imperialistcountries. And it is up to the International Communist Movement to bring themthe revolutionary conscience, organize and transform the rebellions into arevolutionary struggle against the common enemy: the world capitalist systemof oppression and exploitation.

Com. Mao says that: 'World war may break out and revolutions may occur as aconsequence, or, revolutions may breakout everywhere and while confining itsstrength to with stand them, it may become impossible for imperialism toundertake another world war, whichever way it occurs this is as era ofrevolution'.Imperialist capitalism is in crisis!Long live Socialism and Communism!

Or the revolution stops the war or the war unleashes the revolution!

Workers and peoples of the world, unite against imperialism!

**ADHESION AND REPORTS TO ICSPWI CSGPINDIA@GMAIL.COM**

**Let's develop the revolutionary struggle against the preparations for imperialist Guerramundial!**

-STATEMENT-Basically, the wars of power and ongoing commercial wars, the emerging commercial and militarybloques, the allocation of large military presupers, the manufacture of colossal and destruction weapons, the modernization of the military forces and several preparatory types for the World War, even In space, they show lacompetence due to economic resources and political control of the countries ofasia, Africa and Latin America, including several countries in Eastern Europe. All this indicates the intensification of interimperialist contradictions and struggle for the new distribution of markets and world hegemony.

The world imperialist system, decadent and broken down, in its unidirectional inevitablechamber towards the grave, has downloaded the most and more acute world economic crisis on society, and with it, it has extended and deepened on all continents the social, sanitary and sanitary crises and Environmental For the Imperialist insatiable, laminapolization and accumulation of capital at the expense of the global exploitation of social work, the usual export of financial capital, the destruction of nature, the looting of the oppressed countries, is not enough. The crisis of its system, mainly the economic one, promotes the imperialists to make a new distribution of the world already divided. A new public that can only be achieved by the economic force, the Financiera Force, the Military Force, the Force of the World War among a few imperialist people in decay and others that fight for the hegemonic, as a product of the inexorable economic law of unequal development of the countries Imperialists

But the same economic and social causes that push the imperialists warehouses of prey, become invivible estoparable material conditions for the slaves of capital, material conditions of the albelión of the exploited proletarians, of the peoples, nations and countries approached by the monopolies and The

imperialist countries. And international communist almovation corresponds to bring them revolutionary consciousness, organize and transform rebellions into a revolutionary struggle against common elenemeigo: the world capitalist system of oppression and exploitation.It corresponds to the communists to give an example of an internationalist unit and fight against the preparations for a new world imperialist carnage; unite and coordinate efforts to promote the revolutionary struggle of the proproletary armies in all countries against the mobilization of troops and weapons palalas reactionary wars; Build a common front with all reflections, anti -imperialist, democratic and environmental forces that oppose war and military support and commitment of Lacayos regimes with their imperialist masters throughout the world especially in semi -colonial and semi -feudal countries; Reject and denounce as traitors to the opportunistic System who, in the name of the proletariat and the peoples, give suapoyo to one of the imperialist factions, when all of them are emortial enemies of the oppressed and exploited of the world; Supporting without truce the fighting directed by the authentic Marxist-Leninist-Maoistic communists, mainly the popular war in India along with otherpopular wars in the Philippines, Turkey, Peru, today are the avant-garde of the world private revolution, against imperialism and its reactionary dogsguardianes National

Imperialist capitalism is in crisis!Long live socialism and community!

Or the revolution stops war or war unleashes the revolution!

Proletarians and peoples of the world, units against imperialism!

EDITORIAL

Weekly Editorial - Only popular struggle can defeat the coup virus

By and writing

02/22/20233 minutes of reading

The PSOL called the STF, on the 14th, to do, as an institution, an "integral interpretation" of article 142 of the Federal Constitution; In the following step, movements in Congress began to emerge to review the article, attempt authorized by the PT Directorate and Luizinácio. Article 142 is a point of tension for golpist provocations and the protection of the reactionary armed forces: the interpretation according to which the article gives mandate to the forces to intervene to "defend the homeland" and the "constitutional powers" is ananimous between senior officials, although Without being activated by one of the "three powers", against what conditions the aforementioned article. Gilmar Mendes, Minister of the STF, revealed that the excommantante of the army, villas-bôas, questioned whether he agreed with the thagolpist interpretation.

On the other hand, Luiz Inacio and the PT bench in the Senate are working to deflate and hinder the work of the ICC that investigate them serious made of January 8, when the turbhes of the extreme right, azuzad for ambiguous statements of generals, invaded the barracks General of the "three powers" believing that this would trigger a "military intervention." to prevent the action of fascists. Why don't Luiz Inacio want to investigate this? Why do hot rags and hot stones at this serious matter for the nation, in which there are very strongindications of a counted coup between senior officials of the reserve and active?

It will be useless to try to manipulate article 142 of the Constitution. Elagujero is much lower.Second, that the imposition of a "moderating power" to the country, as a counterrevolutionary preventive and permanent force, is the most important element of the exploiting and oppressive class character, present in all the constitutions, the result of the fact that the democratic revolution never triumphed in Elpaís. In the monarchy, this was done by the emperor, who had forces; And in the other six, already of the Republic, he expressed himself in the fact that the armed forces have the legal attribution of "defending the public order" and "defending constitutional powers." The ruling classes, enfin, have always had a central concern to have a counterinsurgent unbiesitive hand, since the revolution has always been in Lagenda, sometimes more, sometimes less.

Thirdly, as an expression of what was said above, you can see that the first -line spokesmen of the ruling classes were against the "correction" of the article. O Globo and Statão, to keep two pressures where part of the reactionary

intellectuality is located, in recent publishers, qualify this "great error" movement, because the constitution would be very clear to define the functions of the armed forces.

But it is still an unfortunate illusion to believe that it is possible to block the coup moving with deliberations of institutions that only have power that are hooked to the bayonets of the armed forces. Therefore, even, the spirit of this initiative tends not to prosper. The virusgolpist is a constant in the history of the country, because the emergence of a democratic revolution is a constant. There is only one way to defeat the counterrevolutionary offensive: to lift the mass movement, strain of their immediate and general interests, of which they form part of democratic rights and freedoms conquered with effort, now reached and the others never achieved; Uniting it, step by step, with the fight for a regime of new democracy. Contrary to Atizar, this is the only one that can dissuade the attempts and, ultimately, defeat it even if it imposes itself.

Protesters fill the City Council against the increase in wages and the number of councilors of the municipality. Photo: Maringá Post

The Maringá City Council approved, at the end of December of the last year, an increase of 43% in the salaries of the councilors in a crowded plenary of demanifestants contrary to the proposal. With the measure, the salaries of the councilors will pass from R $ 10,623.00 to R $ 15,193.00, and the salary of the President Dachara will go from R $ 15,934.37 to R $ 22,790.00.

Taking advantage of the tune, the House also approved the increase in the number owners from 15 to 23, maximum number of parliamentarians in the legislature for a city with the size of Maringá _. "We understand that increasing the presentation will do well for the population […] will increase the expense, but the benefit it will bring will help the population a lot, especially more needy asperson who need a present councilman," explained Máriohosokawa, President of the House.

This supposed representativeness, however, was denied by the facts, since that online survey pointed out that 84.4% of the 1,000 respondents said it was against the increase of councilors in Maringá. In addition, the session in which the projects were voted featured massive presence for protesters opposed to the increase in wages and the increase of councilors. Carrying tracks and t - shirts stamped with “my vote is not”, the population sang shouts and boos while reading the guidelines and asvotations. Two protesters were taken to the police station by the Military Police.

Protestoduring the session in the Maringá City Council. Photo: RPCAssessment in the City Council was interrupted by the popular manifestation.PHOTO: MARINGÁ POSTIt turns out that the Federal Supreme Court unanimously decided that the payment of the third of vacation and 13th salary to the councilors is fully posed, as long as the perception of such sums is provided for in municipal law. That is, according to the understanding of the Supreme Court, the right to the third of the 13th salary is guaranteed to any Brazilian workers, including the occupants of political positions. However, councilors already have other rights to receive, such as the right to receive at the beginning and in each legislature the same amount as the monthly net allowance(subtracted from the party portion)and also the right to receive at another identical value, in proportion to its presence to the plenary meetings that occurred along the doan.

Support committees perform 20 years of and. Photo: Database and

On February 11, the Sorocaba and Campinas support committees and jointly celebrated a joint celebration due to the 20th anniversary of the Novademocracy **Jornal** . The celebration featured political, cultural activities and a product sales of products available at the And.

Representatives of the class movement of workers were present(Moclate), Dawn of the people(AP), Popular female movement(MFP)Edemais supporters of **and** .

The political-cultural act began at 14h with the singing of the proletariat hymn, the International. Then a video was shown about the 20 years of **and** .

Audiovisual production thrilled and captivated the attention of all gifts who were able to know the journey of struggle drawn by the newspaper members of the newspaper, until their tasks, today.

Subsequently, the representative of the Sorocaba Support Committee honored the people of the people of the people and builders of the popular and democratic press: Waldir Tavares, José Maria Galhasi, Beatriz Torres, José Moreira Chumbinho. Health problems, a video in honor of its trajectory has been exposed and everyone wanted “ **long life to Professor Fausto Arruda** ”.

One of the most striking moments of the celebration was the reading of the message of the national common peasant alloys(LCP). A nota ressaltava aimportância do **AND** para a construção do movimento democrático-revolucionário no campo, divulgando aos quatro cantos a bandeira da revoluçãoagrária.

Event had cultural presentations. Photo: Database andPolitical-cultural act celebrated 20 years of and. Photo: Database andThe atmosphere was loaded with banners with the assignments **Live LCP!** , **Do not vote!Rebell is fair!** , **The new democracy. Support the Press Popular and Democratic!** , In addition to numerous posters, supporting the peasants and paying honors to companions who fell throughout the fight. country and the world. The presently listened to the places and at the end made interventions.

Exposition to the national political situation was carried out by the Deleter Support Committee. Photo: DatabaseOdactive has been around topics such as the defense of democratic freedoms and the need to fight against the new high school. Photo: Database and

A high school student took the word, demonstrated agreement with political analysis done, and pointed to the importance of the youth struggle to arrange the attacks on harshly conquered democratic rights, highlighting popular mobilization for the end of the new high school. In addition to this, the representatives of popular movements present proceeded nodding.

The rainy day in the interior city did not prevent the celebration, which ended in numerous artistic and cultural interventions of those present. Poems have been remedied and songs and an animated mood took over the environment. Throughout the event were sold specimens of the 250 edition and other products available at the **and** store. For the closure of the great atopolitical-

cultural, slogans reinforced the democratic character of the Jornal, greeting the two decades of resistance and struggle of this lighthouse of the fighting: **Do not read, do not read, Bourgeois Jornal!Read the newspaper A NovaDemocracy!** .

Former Federal Police arrested for arms trafficking in Nova Iguaçu-Photo: Reproduction/TV Globo

On February 15, a former federal policeman, owner of two Emnova Iguaçu weapons stores, was arrested with three other employees for “illegal sale”(traffic)of firearms in the Baixada Fluminense. The operation was carried out the Federal Police and was the largest seizure of the corporation in the state of Rio de Janeiro. The name of the subject was not disclosed.

68 rifles were seized; 12 revolvers, of restricted calibers; 204 rifles and thousands of cartridges of various calibers, including them. Weapons, accessories and ammunition were not in the army's collection, which is a prerequisite for being sold in the country.

The seizure occurred in one of the areas with the highest presence of the so-called “militias”, composed mainly of police, former police, collectors, sports shooters and hunters(CAC’s), between others. Asásas under the domain of these mafia groups increased by 387.3% between 2006 and 2021. Today, the "militias" are considered the largest "criminal group" Dorio de Janeiro in the matter of dominated territories. The data are from the study of new studies of new illegalism(Gene)from the Federal Flumin University(UFF), in partnership with the Fogo Cruzado Institute.

A survey by the Globo Press Monopoly in 2022 in proceedings that they are in the RJ Court of Justice revealed that “militias” who work in state cities have cacs among their members. Since 2018, seven cacs accused or convicted of joint militias. In the rooms, they perform the functions of collector, armory, supplier Demunition and even killer, responsible for murdering disaffected from their pack.

In another case of 2020, after investigation that militiamen were in a “security rate” of residents and traders in the Vilar Dosteles neighborhood of São João de Meriti, agents of the Baixadafluminense Homicide Police Station(DHBF)Thiago Gutemberg de Almeida Gomes arrested, the Local Mafiosco, which was part of the CACS category.In conversations, Curisco narrated the terrorism practiced against the Lolocal population, between murders and beating. In one of them, he claimed that "battery" and gave "players in the head" of a resident who let the militia rate come across.

The arrest of the former federal police officer, who owned a weapon store and dealer dealer, proves that favela operations are useless in “combating drugs to organized crime”. Since 2007, Rio de Janeiro's police forces were responsible for 482 operations with high lethality in theometropolitan region(chakinas), with a balance of 1,962 dead. In these actions alone, 15% of all homicides for police intervention in the Greater Rio de Janeiro last 15 until 2021. Even in the middle of the pandemic, 189 residents were moved. In the first five months of 2021, the number of operations grew 34%.

These operations, which are promoted through the Armed Forces and Police Old Reactionary State, are actually control and cercoterritorial of a large mass of workers, residents of the favelas(that capital of RJ, represent about 22% of the population). Frente ao enormenúmero de trabalhadores privados dos direitos mais básicos que estãopermanentemente insatisfeitos com a condição de vida imposta, a única saídaque as classes dominantes oferecem é o aumento da violência e terrorismoreacionários. Enquanto isto, o velho Estado e seus agentes mantém sob o seucontrole o tráfico de armas e drogas, sendo os maiores articuladores ebeneficiários destes lucrativos negócios.

Peasants protest against land grabbing. Photo: Reproduction

The end of January and early February was marked by great component mobilizations in the state of Bahia. From January 30 to February 13, about 1000 peasants participated in the mobilizations taking land, closing highways or occupying buildings of the old state.

Peasants protest and ask for asphalting in northern Bahia. Photo: Reproduction/TV Bahia

On January 30, about 300 peasants from Sento Sé, in the backlands of Bahia, blocked the passage of the trucks of the Australian imperialist mining company Iron on the BA-210 highway, claiming their immediate asphalting. Oscamponese

denounce that heavy traffic of heavy vehicles for ore flow has caused numerous health damage, rivers and plantations from the region's communities.

In a document presented to the City Hall of Sento Sé and the imperialist mining company in 2021, the communities require improvements to be executed to contain the mining company's installation, such as paving of communities, basic sanitation that ensures drinking water supply, as well as improvements in school buildings, and health center implementation, among others.

On February 13, in Correntina, in the west of the state, peasants from traditional background and pasture closure made a NABR 349 protest in complaint to the latest land grabbing offensive in the region. He joined to buy an old Document and made an area of an area of approximately 15 million in the Valley of the Arroado Valley.The protest of the peasants is yet another episode of the hard struggle that wage the fees against landlord and grabbing, and their paramilitary flocks. Desesetember of 2022 private landlords are terrorizing more than 20 peasant communities through invasions, destruction of the Workners, persecution and threats of deaths. The performance of the deextrema-right gang occurred in the municipalities of Correntina and Santa Maria da Vitória, in the Bahian Cerrado. The attacks occurred even after the peasants sent the opportunistic government of Rui Costa(PT)A letter demonstrating how the paramilitary pack, which brings together at least 18 men.

Peasants occupy Cabrália City Hall. Photo: Reproduction

On 02/06, in Santa Cruz de Cabrália, in the southern end of Bahia, about 200 companies organized by the Landless Rural Workers Movement(MST)occupied the headquarters of the City Hall. The peasants require the City Hall to serve the parts that have been requested for more than two years in the areas of service of the municipality. The main requirements are related to the access and road maintenance, as the current state of the roads makes it impossible to acommal students, access to the health post and the marketing of the agricultural production of settlements. In addition, the sitting families(about 600 peasants)They also require improvements in health conditions, medical commemoration and maintenance of the region's post; Lighting in colective areas such as school and road; Construction of bridges and better conditions for the production of family farming, among other claims.

In a note, the Landless Rural Workers Movement(MST)states that the reactionary agnelo Santos reactionary(PSD)It has treated the guidelines of the workers and peasant workers with neglect and that families require responses from the city. The peasants denounce that in many moments the mayor received the representatives of the communities, made, and did not perform them. In addition, the mayor suspended the services in the detainee, coordinated by the Municipal Health Secretariat.On 01/30, about 50 peasant families occupied the headquarters of the extinct Bahian agricultural development(None), at Sinésio Tripp Farm, located between the municipalities of Jaguaquara and Itiruçu. According to the leadership of the occupation, the company never served the interests of the peasants, and its lands, belonging to the Bahia State Government, only serve for funds of land auctions. In the following days, more peasants have been to the occupation, which now has 200 families. The camp was named Osmar Azevedo, leader of the peasant struggle in Bahia who helped advise the MST in the state.

Already on 02/05, about 50 families occupied Fazenda São Jorge Correia.Juntas, the two farms have over 3,200 hectares of land. The areas are already being used to plant gardens and animal breeding.

On 02/06, 178 peasant families living and producing at CampoClaudia Sena, located in the municipality of Itabela, in the far south of Bahia, were dumped through an eviction order signed by Judge Robertocosta de Freitas Junior. Families were removed from the site, and the plantations were destroyed. The judicial decision prohibited workers and workers to use vehicles to withdraw their belongings. At the moment, families are camped on the banks of the Destrada, about 3 km from the camp site.

According to the MST, in ten months of judicial dispute, this is the unfavorable third party to the camped families. The movement states that the judiciary has shown “rigor” to guarantee the interests of the lattificee and denied requests that guarantee the rights of camfononers.

The state, according to the study “Land Structure in Bahia, Brazil: an optical analyzes of the 2018 Gini index”, had, in the year before the study, more than 230 municipalities with land concentration considered strong to very strong, and 8 of them They had a very strong land concentration the absolute. Osdates were analyzed under the gini index. Since 2017, the event of event has grown throughout the country.

*A information article - Extract* i

With the end of the compulsory lever, decreed on January 1, 2005, the Italian forces have passed to the professional army. Since then, the army sees an organic of about 93,000 soldiers. The armed forces - without the 108,000 carabinieri - have 168 thousand army units, aeronautics and marina. In practice

we have more carabinieri chesoldi. In an audition to the Chamber Defense Commission, the head of statomaggiore of the army, General Pietro Serino said that: "Also inconsideration of the current situation, with the war returned to the heart of Europe, the army must aim for the finish line of at least 110,000 Men Edonne, who would also be consistent with the qualitative needs and staff of staff ". "We cannot ignore that unfortunately the war between states has returned to the Europadopo 77 years. And for the army it is a question of restoring skills that in the last years seemed to belong to the past, or to a distant future, to deign with new units dedicated to cybernetic domains e Space ", haa. According to what is explained by General Serino, "the general orientation is to return to the numbers of the original professional model, abandoned in 2012, the pressure of a difficult economic situation", or "110.000uomini and women" compared to the current 93,100. A number that would allow to "respond adequately to the complexity of the challenges to security" and to "manage the tools that technology makes available". General Serino therefore underlined the need to increase Ilnumero of officers compared to the total of the actual, up to dispose of "9,800 out of 93,100" effective, with a percentage equal to "10.5%", as well as Ilnumero of non -commissioned officers, with "a" increase of 1,900 ". The percentage of the Military Organic Distactory is 37.6%. The General stressed that the officers represent 13% of the French army, 16% of the British one and 16.8% of that hetemedes. Italy must therefore bring this share at least 10/11%.

# PC February 23 - Valditara - a filthy fascist as Minister of Public Education, covers neosquadrism - we respond by extending the anti - fascist student mobilization throughout the country

Author: maoist

Description: Info Valditara against the principal that wrote the letter on Fascism: "Improper act, ridiculous to speak of fascist risk" ...

Time: 2023-02-23T20:33:00+01:00

Images: [' 101542748-88d78014-476e-4a7f-9399-3f33b7c9bfe3.jpg ']

**info**

**Valditara against the principal that wrote the letter on fascism: "Actoimproprio, ridiculous to speak of fascist risk"**

Minister Valditara(ansa)The Minister for Education: "They are instrumental initiatives that express about twisticization that I hope that he no longer placed in schools. If the attitude will persist we will see if it will be necessary to take". Immediate reactions: "be ashamed", "serious censorship". The middle network: "Speaks"

He is silent for a day, the Minister for Education, on the letter of the president of the Da Vinci High School of Florence to his students to spur them not to be anxious to the violence that led to fascism. Just as she had not dictated on the aggression of student action at the high school students of Michelangiolo. Then the lounge that

He triggers a storm on the school and which leads to the request, from many sides, of his resignation. **Giuseppe Valditara** speaks live this morning, in the Mattino 5 program. And attacks: "It is a completely improper letter, I was reading it, it does not compete with a principal to send messages of this Athype and the content has nothing to do with With reality: in Italy there is no violent and authoritarian derives, there is no fascist danger, defending borders has nothing to do with Nazism. Soninials who express a politicization that hopes that I do not place more in schools in schools ; if the attitude is persisted we will see sits need to take measures ".In the letter, the principal recalls that "fascism in Italy

was born at the edges of any sidewalk, with the victim of a beating for political reasons was left to itself by indifferent passers -by". An invitation Airagazzi to react against indifference. But Minister Valditara attacks: "I don't know what to do with these letters, they are ridiculous letters, to think that there is a fascist risk is ridiculous. I find there is more and more acknowledged to freedom of opinion and a raise the tones transforming the polemic a campaign of hatred, delegitimization and falsification sometimes ofreatà. I ask the parties of the opposition greater responsibility. And intantoma aspect solidarity also from the principal that the letter wrote ".

The reference is to the threats received yesterday by the Minister, on which Digos investigated, appeared four days ago on social media. In particular, you would deal with a post with the written "I dreamed of the barricades in via Bologna tonight. Ela Digos here no longer enters, Valditara upside down". The hint on theBarricate would be a reference to a fact that happened two weeks ago atorino, when it was occupied, by a student collective near the centerosocial Askatasuna, the Liceoeinstein ."Non mi preoccupano le minacce, ritengo si stia creando un brutto clima,occorre abbassare i toni della polemica" dice Valditara. Alzando, in sostanza,i toni. Ed ora la polemica è ancora più infuocata, lo strappo con il mondodella scuola consumato.

**Le reazioni: "Valditara si vergogni"**

Le reazioni politiche, di sdegno e di solidarietà alla preside rispettoall'attacco di Valditara, non si fanno attendere. **Enrico Letta** lancia sutwitter un hashtag: #GraziePresideSavino. I dem sono compatti, **PeppeProvenzano** , vicepresidente del Pd, chiede le dimissioni. Le reclamano intanti. "Valditara si scusi o si dimetta" tuona il sindaco di Firenze DarioNardella che oggi si è recato al liceo DaVinci to meet the principal. And so **Simona Malpezzi** , president of the Deisenors of the Democratic Party: "Valditara starts to censor the thought of a school manager? A serious attitude that boasts of teaching laillibertà".Attaches in a post **Stefano Bonaccini** , candidate for the PD Egovernor secretariat of Emilia-Romagna: "The government remains in silence of fascist militants outside the high school of Florence Sabatoscorso, on the other hand threatens measures against the principal he wrote Students after what happened. A behavior that, in fact, covers iviolenti and accuses those looking for the comparison starting from the values of the democracy of anti -fascism. serious and unacceptable. Meloni intends to continue to Atalcere? ". On the same line

**Elly Schlein** , which to the primary challenge for the after read: "A government that is silent in the face of the aggressionisquadri players at school and threatens a principal that writes of cunning anti -fascism and students chooses to legitimize those same methods. Shame. Valditara has sworn on the anti -fascist constitution, it shouldn't be a minister "

For **Nicola Fratoianni** , Italian left, the words of Valditara "do not worthy of a minister". And he adds: "Of a liquidator of the schoolpubblica like him our country and the world of school do not know what to do with it". "Scandalous, I express closeness and support to the principal Annalisasavino who underwent an indecent and against lacostonation attack from the minister," he writes in a note **Angelo Bonelli** Co-Portavoce of Europe and Green and Left Deputy.

**Students: "Dimetta"**

**the Anpi: "Unacceptable, climate of authoritarian intolerance"**

"The letter of the principal of the Lyceum of Florence Annalisa Savino is an example of civil and republican pedagogy. The attack of the ministrovaldirara against her is unacceptable. The veiled threat of future measures is the climate of the climate of authoritarian intolerance that this walker is promoting and spreading by raising the climate of tension in the country. He was undoubtedly recognized to the Minister Solidarity for the threats received. But his very noisy silence in front of the attack suffered by the Studentidi Florence is a proof of frankly disconcerting partiality by the anminer of the anti -fascist republic " , writes it **Gianfranco Pagliarulo** , national president of the ANPI.

# PC February 23: worker training on "Imperialist war and proletarians". Against the defense of the capitalist/imperialist "homeland"

Author: fannyhill

Description: We resume in this third appointment to read Lenin's text together, collecting on this occasion some quotes that commented ...

Time: 2023-02-23T20:49:00+01:00

Images: [' la-parola-d-ordine-della-guerra-civile.jpg ']

**We resume in this third appointment to read the text Dilenin together, collecting on this occasion some quotes that we will commemorate in the event.**

" **What is socialcutovinism?**

Socialsciovanismism consists in supporting the idea of the "defense of the aptry" in the current war. From this idea also derives the renunciation of classlot in war time, the approval of war credits, etc.

In reality, the social scoreists lead an antiproletary bourgeois policy, because in reality they support not the defense of the homeland in the sense of unalotta against foreign oppression, but the right of certain great greatness to plunder colony and oppress foreign peoples.

The social scoreists renew the bourgeois deception against the people, as Sela Guerra was done for the

Defense of freedoms and for the existence of the nations and thus pass from the bourgeoisie against the proletariat.

Both those who justify the governments and the bourgeoisie of one of the groups of powers of powers, and those who recognize the socialists of all the powers of the powers of "defending the homeland" are to be included among the social scores both those who justify both those who justify the governments.

Socialsciovinism in reality represents the defense of the privileges of the premium, the looting, of the violence, of the "proper"(or in general of any)Imperialist bourgeoisie ".In the event of a war, the socialists must exploit the "Epolitical Economic Crisis" which derives from it to "hurry the elimination of the classacapitalist domain", that is, to exploit the difficulties that war creates to governments and indignation of the masses for the purposes of the socialist revolution "

Consequently, Lenin reports that this is exactly the opposite of what the social scrubitists do and do, and here referring not only Aquelli explicitly linked to the government parties but to all the distinctive genius who are in opposition to these governments or that they are to act on behalf of workers and masses.

Lenin says "the policy of social scoices, the justification that they are the war with topics of" freedom "bourgeois, the admission of the" defense of the homeland ", the vote of credits(increase in military expenses, sending weapons and soldiers. Editor's note), participation in the ministries, is an open -traction of socialism ..., and is explained only, with the victory of opportunism and the liberal national workers' policy ".

Lenin then takes into consideration in the field of socialist parties and belonging to workers the social scaling use of some false Amarx and Engels calls; In particular by Engels of 1891 on the obligation for German issocialists to defend the homeland in the event of war against Russiae, joined France, and of the fact that Marx and Engels on the occasion of some of the years, over the years until 1877, set off On the side of the unederial belligerent state once the war had broken out.

It is, says Lenin, of repugnant deformations. Marx and Engels condemn the Germans and had approved Bebel and Liebknecht's refusal to devote war

credits and had recommended the social democrats to do not do with the bourgeoisie and to defend the interest of the proletariat independent class.

Furthermore, all the SocialSvinists hide that Marx referred to wars in the progressive perpetus of the bourgeoisie, "when there were neither imperialismation of the objective conditions already mature of socialism, in partisocialists in all belligerent countries.

Marx's position is only one "the workers do not have a homeland", words that take place precisely at the time of the reactionary bourgeoisie, overcome, at the time of the socialist revolution ".

The Armed Forces of the Philippines in Easternvisayas had four battalions between December 2022 and February to “defeat” the “remaining active guerrilla field” in the northern part of Samar. They are certainly investigating the killings, arrests, threats and a surgery in the regional peasant communities in the region.

The 74th IB arrived in Palo, Leyte on February 20 from Quezon-Bicol on February 20. The 21st Scout Ranger Company also arrived in the region of the 4th Scout Ranger Battalion Mulasa Davao City on February 17. , 400 elements of the 4th SRB SHA will be reached at the port of Calbayog City on December 11, 2022. In addition to this, 564 new soldiers graduated from a 6-month military training at Camp Eugenio Daza in Hinabangan, Samay Ding February20.

***bloody battalion***

The list of violations of the 4th SRC involved in operations Boboma, killing, arrest and forced to surrender civilians in Barangay Saagusan del Norte and Misamis Oriental. It also plays the role in the crushed in Marawi City which has evicted nearly one million Moro.

Meanwhile, the 42nd IB in Bicol is famous for its role in the implementation of the Memorandum Order 32 of the then US-Duterte regime since 2018. According to the NationalDemocratic Front-Bicol, this order resulted in the assassination of one Bicolano per week by AFP forces and PNP in the region.

Based on cases of human rights violations, at least 17 victims of the killings in January-November 2022 only.

Type: article

Together on Tuesday, February 21, parents and teachers of the National Agricultural School in Barangay Mataragan, Malibcong, Abralaban were involved in the soldiers who were campaigning inside the school, due to the threat of children's security. They successfully drove the soldiers away.

Residents have complained that the entire community has always been disturbed because of the presence of soldiers in the area. They can no longer work in their lives and travel to the forests due to unstable military operations.

Meanwhile, the pressures and interrogation of militararkay agents Jerome Agaid, a farmer belonging to the Mabaca's Peaceproof Mabaca, who lived in Mataragan, Malibcong, reported. Agaid joined on February 16, 2023 with his 5-year-old fisher fisheries in Barangaygadani, Tayum, Abra, when soldiers were attacked and held.

Due to this incident and other previous military abuse of Saabra, the actions of the people have grown stronger to complain about a great event.(NPRA report)

Images: [' northern-samar-armed-action-1024x502.jpeg ']

Categories: None

Type: article

The partisan operations staged by a unit of the New People's Army in a marketplace in Barangay Cotmon, Camalig town, Albay against a supply unit of the31st Infantry Battalion, was a legitimate military operation againstcounterinsurgency troops of the Armed Forces of the Philippines(AFP). Twoenemy troops were killed and a .45 caliber pistol was seized.

Military supply lines comprise an important aspect of war operations. Thesoldiers, in fact, were armed and ready to engage in battle when ambushed.Disrupting the AFP's supply lines are among the tactics for waging guerrillawarfare.

The claim of the 9th ID that the troops were preparing for search and rescueoperations over a missing Cessna plane is a sorry PR attempt to gloss over thebrutal counterinsurgency record of the 31st IB, in the hope of gaining publicsympathy.

The 31st IB, to which the two troops belonged to, is an active AFP unitengaged in counter-guerrilla operations and is responsible for scores of humanrights violations and war crimes. It is the unit behind the May 8, 2020massacre of five peasants in Bulan, Sorsogon as well as other cases ofkilling, torture, illegal arrests and detention, threats and harassment ofpeasant communities in Sorsogon and Camarines Sur.

The partisan operations of the NPA in Albay point to the fact that armedguerrilla operations in Bicol continue to expand. It shows the ability of theNPA to deploy teams anywhere in order to strike at enemy military targets.

*(The above statement was issued in response to media inquiries.)*

Images: [' christians-for-national-liberation-1024x576.jpg ']

Categories: ["People's Struggles"]

Type: article

The Christians for National Liberation remembers our country's long, ever-persistent tradition of resistance as we join millions of Filipino toilingmasses and democratic forces in commemorating the 37th anniversary of the EDSAuprising. In the years and decades that followed the uprising, we are alsoaffirmed and will always remember that the semi-colonial, semi-feudal systemwould never afford the poor and oppressed with any means to achieve a lifedevoid of suffering.

CNL looks back on our victory thirty-seven years ago with pride and lessons.We commemorate the success of anti-dictatorship campaigns that aroused andmobilized millions. We honor the heroes and martyrs that have contributedtheir lives for the country the people's movement to grow. We remember thelegacy of the priests, pastors, sisters, and lay workers who influenced theirflocks, and marched the streets bearing crosses, rosaries, and Bibles facingthe fascist Philippine Army braced with guns and tanks.

We keep this memory alive by continuing the revolutionary legacy of the churchpeople who continued standing bravely and resolutely with the

oppressed, evenbefore and beyond the EDSA uprising. Priests, pastors, nuns, and lay leadersfaced the Philippine Constabulary in campaigns against rights abuse, such asduring hamletting of towns in Compostella Valley in 1983. They have rallied inthe streets with the Movement for National Liberation in 1991 to oppose USbases in the Philippine territories. And almost a decade later, CNL joined thedemocratic forces in its mobilizations against the US military control in thecountry through the Visiting Forces Agreement and Balikatan exercises. Theyalso mobilized resources to extend humanitarian assistance to the mostmarginalized basic masses in the countryside, going beyond the reach of thestate. In the decade that followed, CNL and its religious revolutionariesbecame even more staunch peace champions and defenders of people's rights. Wewill continue to give our utmost support and participation to all pursuit forpeace and liberation - from the tables of peace negotiations, the struggle ofthe basic sectors in the countryside, factories, schools, and streets, to thedeep ends of our mountains with the New People's Army.For CNL, it is undeniable that the society today mirrors the suffering in ournation more than three and half decades ago. With the rule of Ferdinand MarcosJr., we are suffering parasitic corruption, criminal negligence andindifference, state terrorism of the very worst, and puppetry to the USimperialist, as was with his father's fascist dictatorship. We experience thesame vicious and inhumane repression in the past, with the rampant violationsof human rights and international humanitarian law today. These are the veryconditions that made Marcos Sr. an absolute enemy of millions of Filipinos,and have pushed them to oust a vile dictator.

It is crystal clear that as long as the unholy alliance of imperialism,bureaucrat capitalism, and feudalism exists, the state of repression andoppression will persist and worsen, under one fascist ruler after another.Thus, as we remember the victorious unity exemplified by the people in theEDSA Uprising thirty-seven years ago, we are firm that the only path towardseverlasting peace is through the revolutionary resistance of the masses ofworkers, peasants, and tyrannized peoples.

We look ahead by holding close to us the urgency and importance of advancingthe people's democratic revolution. As God commanded war to bring the peopleof Canaan to the land of milk and honey, we are affirmed that it is onlythrough the people's protracted war could the masses taste the life that waspromised - life of democracy and freedom.

The Christians for National Liberation believes that the people of faith willdisplay again the bravery and resolve to influence and unite the broadestnumber of Filipinos to defeat the counter-insurgency and terrorism of the US -Marcos II regime. We vow to support and escalate the Filipinos' tradition ofresistance by supporting in all fronts and carrying forward the nationaldemocratic revolution with a socialist perspective.

Images: [' npa-abra.png ']

Categories: ['Human Rights', 'National Minority']

Type: article

The Agustin Begnalen Command - NPA Abra condemns the harassment of civilianJerome Agaid by intelligence operatives of the 24th IB stationed in Abra,while he was with his five-year old child. Agaid, a resident of Malibcongmunicipality, is a Lupong Tagapamayapa and a member of the Mabaca tribe.

Before this incident, Agaid had been subjected to surveillance and was beingpressured by the Army to surrender. The military wanted to take advantage ofthe difficult situation that Agaid was facing. They offered to shoulder themedical expenses of Agaid's wife who was confined in the hospital. In exchangefor their financial 'assistance', the AFP wanted Agaid to turn traitor to histribe.

This incident is but the latest crime committed by the 24th IB. Last 27November 2022, the soldiers shot at 5 civilian hunters from Brgy. Buneg, Lacubmunicipality. Two of the hunters were seriously wounded and were hospitalized.Adding insult to injury, the Army delivered financial 'assistance' to thevictims' families. They were then made to sign papers certifying that theywould not file a court case against the 24th IB.

The list of crimes committed by the 24th, 71st and 102nd IB of the PhilippineArmy against Abrenos grows longer and longer. They occupy the municipalitiesof Lacub, Malibcong, Tineg, Baay-Licuan, Daguioman, Bucloc, Boliney,Sallapadan Luba, Tubo and Pilar. The people fear for their safety every timethey go to their fields or forests. There is no rest from the Army's surrendercampaign, surveillance and harassment.

These fascist troops are in the area to neutralize any opposition to the entryof large-scale mining and hydropower(dam)projects. They are ever-ready tocommit crimes against the people in order to protect their capitalist masters.The AFP are like leeches growing fat on the blood of public funds whilst thepeople sink deeper into hardship and poverty.

The AFP's martial rule in Abra must be ended!The 24th, 71st and 102nd IB mustbe driven out of Abra province. They must be prosecuted for the crimes theyhave committed. Justice must be served to the people of Abra.

Type: article

Agustin Begnalen Command - NPA Abra condemns the pressure(harassment)of the 24th IB's Intel agent with civilian Jerome Agaid, along with his youngest son of five years old. Agaid, from the town of Malibcong, is a peaceful body and belongs to the TribungMabacaca.

Before it was a few times the military was being monitored and forced to be redeemed. The AFP wants to take advantage of Agaid's poor condition that his

wife is hospitalized. They said they would pay for the treatment and replacement were Agaid's traitor to his tribe.

This incident is the latest crime of 24th, 71st and 102nd IB. In November 2022, soldiers shot 5 civilian hunting Sabrgy. BUNEG, LACUB MUNICIPALITY. Two of the civilians were hospitalized by their wounds. In addition to the insulting approaching to the family of the wounded to catch them finance help. After the money, the families of the victims were signed by the evidence of evidence that did not file a lawsuit against the AFP.

The list of crimes of the 24th and 102nd IB of thePhilippine Army against the Abrena is extended. The military occupies the towns of Llacub, Malibcong, Tineg, Baay-Licuan, Daguioman, Bucloc, Boliney, Sallapadan, Luba, Tubo and Pilar. Citizens fear every time they go to their farms and the forests. Army surrender, monitoring and intimidation of the Army are continuous.

AFP fascist troops have been to Abra to obtain all citizens' objections to the enclosure of large -scale mining and dam projects. The AFP is serving their capitalist employers. They are like the rest of the country's wealth as the people are devastated by hunger and poverty.

End military rule!Depart the 24th, 71st and 102nd IB SABIB GOVERNMENT OF ABRA. Pay them to their crimes. Get the hustisapara to the Abreno.

The Agustin Begnalen Command NPA-Abra condemns oppression(harassment)Intel agents of the 24th IB of the civilian Jerome Agaid, accompanied by his last five-year-old son. Agaid is from Malibcong Abra,a lupong tagapamayapa and a member of the Mabaca tribe.

Earlier, how many times he had been watching and forcing Agaid’s military being snorting. The AFP intends to take advantage of the difficult condition of niagaid whose wife is in the hospital. They say they will pay for the cost of his wife’s treatment in exchange for tribal betrayal.

This event is the latest crime of the 24th IB, 71st IB and 102nd IB. On blastingly, the soldiers shot dead 5 civilians who were going to hunt in Brgy. Buneg,Lucub. Two of these civilians were hospitalized for their injuries. In addition, the Army's insulting closeness to the familiesthe wounded to provide familiar assistance. The money was then handed over and they signed the families of the victims who are not suing against the AFP.

The crime list of the 24th and 102nd IB of the Philippine ArmyAse against the Abrenians is getting longer. The military is busy with the towns of Lacub, Malibcong,Tineg, Baay-Licuan, Daguioman, Bucloc, Boliney, Sallapadan, Luba, Tubo of Attracar. The people are troubled when they go to their fields and the forest.Consenting, exploitation and intimidation of the army continues.

The fascist AFP troops have been in place in Abra to kill all the people's struggles against the entry of large mining and projects of dams. The AFP is faithfully serving their capital employers.They are like the alimatek who sucks up the country's wealth while the people are increasingly drowning in hunger and hardship.

End the military kingship!Leave the 24th, 71st and 102nd IB to the province of Abra.Pay them for their crimes. Get justicefor the Abrenio.
